SEPA Environmental Event Report

Action Description

Complainant reported a smell rated 5/5 outside the complainants

SEPA Officer contacted 2 Sisters and asked for a full investigation to be completed to identify the odour source. and both on annual leave, and so responded.

 confirmed on 07/07/19 that there was a blockage in the carbon filter in the waste management area. confirmed immediate action was undertaken and the blocked carbon was replaced. later confirmed on 08/08/19 that on 6th August, was informed that the Sodium Hypochlorite had depleted in a scrubber and that they were waiting on a delivery. confirmed would contact us as soon as this scrubber was operational again (related to ENV/0900596).

 contacted to discuss the likely source of the odours and that SEPA are pressing site to get it rectified as soon as possible.

No further action required.
